## HOLOGENETIC PROFILE

One of the premises of IntegralHumanDesign is that each one of us is born with a unique sacred geometry embedded deeply within our being. This geometry can be plotted through the precise timing and placement of your birth in the constantly shifting universe. This same pattern is also holographically encoded in your DNA, forming a distinct personal profile of genetic sequences, each of which refers to a different aspect of your life and your genius. This is your Hogenetic Profile, the original blueprint that tells us central aspects of the gifts that you bring, how you operate, and above all the mystery of your mission.

Each of the Sequences in this Hogenetic Profile offers a possibility to open and unfold specific aspects of your unique being, and to support the awakening to your true nature. In terms of modern physics, each Sequence and the whole Hogenetic Profile is best understood as a dynamic cluster, rather than a static succession. Each cluster is like a web of interlinking nodal points in the multidimensional waves of consciousness.

The present pdf document summarises the Four Prime Gifts and keynotes elements of the Venus Sequence and the Pearl Sequence for in-depth personal contemplation and Integral Human Design guidance. The Activation Sequence focuses on the self and the theme of one's fundamental frequency. The Venus Sequence takes us into the world of true connectedness and compassion. This clears the way for the Pearl to reveal one's authentic contribution in the world.

## THE 64 GENE KEYS

Central to understanding your Hogenetic Profile, the 64 Gene Keys are the archetypes of human experience, and a language that unlocks the genetic patterns of your birth. Divided into three levels of consciousness – the Shadow (your challenge), the Gift (your potential) and the Siddhi (your essence), they allow you to access profound insights and revelations into the true nature of your being. The language of the Gene Keys is specifically designed to raise the frequency of your DNA, thereby activating your inherent genius and manifesting the true purpose of your life. Your higher purpose comes about as you continually apply the wisdom contained in your Hogenetic Profile and the Gene Keys to your everyday life.

## THE GOLDEN PATH

Your Golden Path is a threefold journey.

The four **Prime Gifts** are the cornerstones, the themes and the challenges of your global role in this lifetime. The path through your Prime Gifts grounds you deeply in yourself and in the physical reality of your body. It is a path that weaves these cornerstones together in their interdependency, interrelatedness and integration. It supports you to fully embody your life's Purpose and to find not only fulfilment and a sense of purpose in this life, but to be deeply grounded in Core Stability in this embodiment.

The **Venus Sequence** is the path of courageous emotional opening and connecting in the relational space. It is a journey of expanding your heart through aligning with your attractor field and releasing your defence patterns. The cascade of this path supports you to let go of the pain of separation, to fully open as love, and to feel into and connect with your Core Vocation.

The **Pearl** is the state or stage of genuine exchange with the universe, of giving and receiving your deepest gifts in synchronicity with the greater whole. This third path guides you to a deep understanding of how you offer your Core Contribution. It supports the growth of our ability to resonate with the abundant flow of life and to truly be of service in the world.

### THE GOLDEN PATH: OVERVIEW

## THE PRIME GIFTS

### PRIME GIFTS ACTIVATION SEQUENCE: DISCOVERING YOUR GENIUS

The first and most fundamental introduction to your Hogenetic Profile comes in the form of your Four Prime Gifts. These are your Life's Work, your Evolution, your Radiance and your Purpose. Taken together, the Prime Gifts capture the essence of your life's cornerstones. They guide you into the field of your genius, where you can discover the true purpose and contribution of your life.

Calculated from the position of the sun at the time of your birth, your Prime Gifts Sequence, also called the Activation Sequence, is the primary genetic sequence in your Hogenetic Profile. Furthermore it is the bridge between your overall Design - described in your Integral Human Design **BODYGRAPH** Evaluation - and the transformative journey to your essence we call the **GOLDENPATH**. The Activation Sequence pinpoints and connects the Four Prime Gifts which form the vibratory field of your genius. It is an invitation to ground yourself in the most physical aspects of your personal path, and it sketches the fundamental mythical journey that is your life.

Opening your awareness for the cornerstones of your journey, following the flow of the sacred geometry, and applying the laws of frequency is what activates this sequence. It is the starting point for your attunement to the various frequencies in your imprint. By deeply understanding and embracing the Shadow aspects of these four Gene Keys in your own life you will activate their higher frequencies and catalyse a mutation to take place deep within your body, mind and soul. By sustained contemplation on the frequencies of your Prime Gifts, you may witness a complete transformation in your life as you unlock the true genius inside you.

**Your Life's Work:** This aspect of your Profile and its relevant Gene Key highlights the ideal arena of your external work in the world. This is the role that most suits your creative expression and that allows you the full freedom to be yourself without compromise. The Shadow of this Gene Key describes what tends to occur around you when you lose touch with your true self. At the other end of the spectrum, the Siddhi or highest potential of this Gene Key describes you living at the absolute zenith of your genetic potential.

**Your Evolution:** In direct opposition to your Life's Work, your Evolution represents the single greatest challenge in your life. The purpose of this Gene Key is to inspire you to grow, mature and eventually flourish. The challenge of your Evolution will manifest both internally and externally through its Shadow frequency. As you learn to embrace this aspect of yourself your life will gradually be transformed. The highest purpose of your Evolution is to allow you to transcend your own suffering, and ultimately find deep and lasting peace.

**Your Radiance:** Your Radiance has a direct bearing on your physical, emotional and mental health. As one of your hidden Gifts, this Gene Key will either undermine your health and well-being through its Shadow frequency or bring great love and vitality to you through its Gift. The Radiance also has an indirect relationship to your Evolution. The more you listen to and learn from the lessons of your life, the more radiant you become. At its very highest level, your Radiance represents the final flowering of your highest mystical potential.

**Your Purpose:** Your other hidden Gift, your Purpose, lies hidden deep within your DNA. When you trust in your highest dreams and have the courage to manifest them through your Life's Work, your Purpose begins to nourish you from deep within your being. When you ignite the Gift of this Gene Key, then you activate the forces of synchronicity and grace in your outer life. Your Purpose is all laid out for you already, and all you have to do is unlock it. This can only occur as you embrace your own inner nobility and express it through selfless service and unconditional love.

The Activation Sequence follows a series of three leaps in awareness that unfold in your life as you activate the higher purpose within your DNA. These inner realisations are called your Challenge, your Breakthrough and your Core Stability.

### PERSONAL PRIME GIFTS PROFILE

On the next two pages you will find your Hogenetic Profile with your four Prime Gifts. Each of these four numbers relates to a Gene Key that was activated at the time of your birth and that deeply governs your life and destiny. The second number after the point refers to another level of knowledge known as the 'line variation', which gives you a key for grounding yourself more fully in these cornerstones of your journey.

## ① 38.5 As your Life's Work

You are one of the great warriors of the world and you need to find your ultimate battle in life. Your battle is the one that goes beyond your own sense of self. It is about serving a higher code and setting a standard of honour for everyone else to be inspired by. If this sounds like a tall order, then you may have to dig deeper within yourself to find what you are really capable of. With the Gift of Perseverance, you are not here to sit on the sidelines of life. You are here to fight for what you believe in and to make a stand against the forces that attempt to undermine the individual. However, you are not an anarchist. Your role is not to tear down what others have built. You are really here to challenge anything that takes away an individual's freedom and makes them into less than they could be. You are a force for justice in the world, so you had better pull yourself into the fray if you are not there already.

## ⊕ 39.5 As your Evolution

Your great challenge in life is to overcome the human need to take everything personally. At an emotional level, you can be very volatile if you are not fully engaged in projects that command your full attention and effort. The danger for you is whenever you become idle – and even more so, if you make compromises in life that do not allow your spirit enough room to breathe. If you are fulfilled by your life's work, then you will not have any energy left over to worry about what others think of you. You need to go your own way in life without having to defend your position, and at the same time, you need to be respectful of the feelings of others.

An important key for grounding yourself in your Life's Work and Evolution is to deeply trust your 'savvy', i.e. pragmatic wisdom, realistic ideas, solutions and perceptions which dissolve delusions, are communicated clearly and constitute far-reaching and beneficial contributions.

## INNER GIFTS

## ① 57.1 As your Radiance

Your radiance really increases the more deeply you trust in the power of your intuition. For you, intuition is such a physical process. It is like a charge that either floods or drains your health. Decisions made from deep within your belly will energise you and fill you with vitality, whereas decisions that are made mentally and that you procrastinate over will inevitably drain you. Your body is also a highly accurate barometer of your environment. It gives you continual readings about where you are supposed to be, when you are supposed to leave, whom you can trust and whom you should not trust. Everything about your life is reflected within the cells of your body, and in particular through your belly. If your body falls ill, then you are either moving through a great change or you have succumbed to inner doubts. Above all else, you must trust in what your body tells you, all the time.

## ⊕ 51.1 As your Purpose

The difference between the Life's Work and Life's Purpose is the difference between what you do and what you are. With the 51st Gift as your Purpose, it is not so important what you do in life. The only thing that matters is the spirit in which you live. You are an awakening force in the world. Because you cannot fit in anywhere, you must cut a groove for yourself in life, and let others stand back in awe. You cannot hide from the world but are here to make a noise that will disturb others from their tight fear-based patterns. Of course, in order to bring such a potent gift into the world, you must first face down your own inner demons – the fear that you will always be an outsider and that no one can truly understand you. In living your life on the creative cutting edge, these fears will be swept aside as the illusions that they are, and for the first time, you will be understood, recognised and welcomed in the world as the breath of fresh air that you are.

An important key for grounding yourself in your Radiance and Purpose is to fully embody your immersion in a learning process with all senses which gives you a solid inner security, acquired in a personal process of introspection and creative research, in order to be well prepared and feel a strong foundation inside.

## THE VENUS SEQUENCE

### VENUS SEQUENCE: FROM SEPARATION TO WHOLENESS - THE HEART OF LOVE AND RELATING

As you awaken to the fullness of your purpose through being grounded in your prime gifts, the interweaving of the mysteries of the Venus Sequence path begins to unfold.

The Venus Sequence is the second and central pathway in your Hologenetic Profile, the heart of the Golden Path. It is a journey of personal inner alignment which takes you way beyond your individual personal self and into the realm of relationship. The holographic lenses in this journey are the Attraction, the Ignition, the Encounter, the Love and the Core Essence. Looking through these lenses you enter the heart of your inward journey towards wholeness and unity.

The Venus Sequence shows us how we move in the world alone and together. This sequence is the most powerful door to unlocking the hidden patterns of behavior in our primary relationships. It shows us our choreographed dance steps which descend into patterns of separation and contraction and light us up with pirouettes of opening and transcendence.

Walking the path of the Venus Sequence as a Sacred Practice opens the doors to the Sacred Wound that has been passed down through ancestral lines.

*"As the wound passes from generation to generation it divides into different combinations of archetypal genetic patterns, which are then reflected in our relationships".* - Richard Rudd.

This sequence narrates the story of how we show up in our relationships and specifies the armory of shadow behavior cultivated since childhood to protect the treasure at the core of the Sacred Wound.

Venus shows us how we have become identified with the safety of the armour but it is this very identification which blocks our love.

*"Your task is not to seek for love, but merely to seek and find all the barriers within yourself that you have built against it."* - Rumi

The Venus Sequence is a path of courageous emotional opening. It is a journey of expanding your heart through aligning with your attractor field and releasing your defense patterns. Opening to the intimacy of communion is a demanding path which takes you beyond your separated personal self yet a direct path to re-experiencing wholeness. This path supports you to let go of the pain of separation, to fully open as love, and to feel into and connect with your Core Essence.

The Venus Sequence unfolds in cascades and leaps of awareness, opening your heart that your love may flow freely into your life and relationships. The inner realisations in these leaps are called Alignment, Surrender, Opening, Flowering and Rainbow. Each of these pathways contain specific emotional challenges when seen and realised propel you on a journey of inner alignment to the release of the core essence. The Venus Sequence opens to offer you the pure potency of your true heritage. One of love, truth and the joy of life. Dissolving the reactive patterns of resistance in an ever evolving evolutionary spiral that you may live the life you were born to live, following the pull of our deepest life's calling.

The Venus Sequence offers you a map into a moving expanding ever-evolving mysterious hologram. There is no part of it that is static, it is not a linear sequence and there are no hierarchical components. It is an invitation to enter the reality of your quantum experience.

*"If you come to a fork in the road, take it."* - Yogi Berra

Shadow, Gift and Siddhi are frequency bands of consciousness. The Shadow, Gift and Siddhi are all aspects of the same quality of essence. They cannot be made separate, they are all expressions of the same crystalline code of consciousness. Each of the 64 codes of consciousness shine and express in multidimensional facets. Have no ideas where the journey will take you. Every Shadow contains a Gift, opening to the Siddhic state requires a full embrace of all frequencies of the code.

## ⊕ 51.1 Core Stability in the field of destiny: Quest or Purpose

*Doing nothing spring comes and the grass grows by itself.* Zen Proverb.

Moving purposefully into the world offering the gifts and emanations of this centre.

Grounded in these qualities we do not waver simply continuing to allow this presence to hone us to the fine diamantine quality that it reveals.

Fulfilment of Destiny

Awakening in mastery and creative rootedness.

Life's Purpose

Grounding ourselves in the four pillars of the Prime Gifts we find Core Stability in the field of destiny. Your Purpose is your inner ground of being, a foundation that serves as a springboard, a launch pad. Everything moves through here, from here you launch yourself into the world. The experience of your life's purpose is anchored in the consciousness of Initiative, and the key for it is security. The pathway to embody this purpose is immersion in a learning process with all senses which gives you a solid inner security, acquired in a personal process of introspection and creative research, in order to be well prepared and feel a strong foundation inside.

Quest for meaning

On the quest for purpose and meaning in life there is a tendency for repression and insecurity which shows in the form of an attachment to Agitation. Acting out the shadow theme of Agitation through identification with cowardly rigidity and lethargy and/or hostile confrontation.

## ⌚ 62.6 Alignment in the attractor field: Addiction or Attraction

This is where we are pulled out of our inner resting space into relating in the world. Some shiny bauble attracts our attention, we move towards this like children in a playground. Only later we discover that our divine carrot was not so shiny and that our rotten apple contained gifts.

Attunement

Impeccability in transcending connectedness.

Attraction

Conscious connectedness as the key for the inner orientation towards Precision. This inner alignment is the basis for attracting people and situations that foster well-being. In attracting Precision, the qualities of embodied presence, alive concern and openhearted participation in life, objective inclusion of all aspects of the picture, i.e. visionary force with a big horizon and overview, are supportive.

Enmeshment

An often unconscious pull or addiction to Intellect as the central theme of a state of suffering which carries or contains a quality of isolation and cutting off. The enmeshment in Intellect may be the starting point for the repetition of familiar shadow patterns that are maintained by obsessive hypocrisy and absence and/or pedantic arrogance and pretension.

Lift off, vitality coming to life,  
motivated to action or maybe to strife,  
friction or surrender, nothing to choose,  
the wheels are in motion there's nothing to lose.

## THE VENUS SEQUENCE

Samuel Harris

### ♀ 60.3 Surrender in the triggering field: Reaction or Ignition

Consent	Justice with playful and rich wisdom.
Ignition	In embracing the gift of Realism, an opening arises whereby the interchange is regarded as fruitful and a potential advancement in growth. The unfolding Realism creates a readiness to be present and take ownership for your intense feelings as key to further growth.
Reaction	As soon as a friction irritates or upsets us, a reaction which negates the momentary situation and stalls the process may come into play. It employs waste of energy , avoidance and drama as a strategy of avoidance. This strategy escalates the defence that may appear as Limitation and originate from unstructured impotence (powerlessness) and/or rigid evasiveness.

The longing for true meeting is driving the soul.  
Resistance is futile we long to be whole.  
Surrender and opening are such precious states.  
My heart on the table I no longer wait.

### ♂ 26.1 Opening cascade in relationship dynamics: Resistance or Encounter

I - Thou	Invisibility in mastery and creative rootedness.
Encounter	In becoming aware of the pattern of resistance you dis-engage. This creates space to encounter the gift of Artfulness. In this encounter you become available and present to yourself, open and available for a true meeting with the other. The key to true encounter is to meet yourself and others in the spirit of being present in all your senses and well grounded in your own body sensations. In the spaciousness of this encounter you may find that solid inner security, acquired in a personal process of introspection, creative research and immersion in a learning process with all senses in order to be well prepared and feel a strong foundation inside, is the frame in which you ground your creativity.
Resistance	Resistance is held in place by identifying with a self image that has been created to protect the wound. The true reality of all resistance is the resistance to the arising of essence itself. In the loss of basic trust we lose contact with the trust in our own essence. In its place we have created a false core. Defence and resistance arise the moment that the beliefs and values held within the false core are challenged whether consciously or unconsciously. When touched by the essence of another we can also find ourselves in resistance as it touches the core of what we have lost. In this moment it can also encourage us to open into a true encounter. The pattern of resistance appears as defensive behavior showing up as hiding behind and/or interrogation with Pride. If not recognised this pattern escalates into a power struggle as our survival feels threatened. We bring out our guns of mental and emotional weaponry, justifying it further by manipulative rigidity and lethargy and/or boastful confrontation. These come into play as weapons of defence to hold the pattern in place as it is protecting the core wound. And yet what we most long for is to connect beyond our resistance of repression and insecurity, to release our essence and to meet the other in this place of deep encounter.

## THE VENUS SEQUENCE

Samuel Harris

I stand here alone, complete and aware,  
this being emanates, devoid of despair.  
This passionate opening is beyond compare,  
my heart is flowering, open to share.

### ♀ 18.6 Flowering in the field of intimacy: Isolation or Love

Boundless Love

Perfection in transcending connectedness.

Love

In a state of love a quality of Integrity and connectedness is presenced. The key to being, experiencing and receiving all-encompassing love is love of life in its fullness and the Divine in every being.

Isolation

At this point and in this state often it feels too dangerous (or painful) to open again to love. Distance and isolation confirm a sense of isolation and shrinking of self, which then expresses itself as Judgement. The internal strategies of withdrawal into inferiority hypocrisy and absence and/or pushing away in superiority arrogance and pretension not only support the insistence of being alone, but also the withholding of love and punishment by the withdrawal of affection. The withdrawal of affection is then justified by Judgement.

A rainbow is rising full of colour and delight.  
It glows with a mystery long into the night.  
It cannot be extinguished, it is what is real.  
My eyes are opened as Venus reveals.  
As the false core melts, such a big deal!

And yet, I am thankful for the journey once made.  
Having faced all the demons that my ancestors laid.  
I added more flavor to honour the quest.  
Now our Sacred Wound can at last come to rest.

### ♂ 57.3 Rainbow in the core process: Wound or Core

Unity

Clarity as a unity experience with playful and rich wisdom.

Core

In the wholeness of our deepest openness and vulnerability suffering is recognized as an illusion.  
Experiencing completeness, nothing to repair and no-one to hurt. Intuition is the quality of being where judgement disappears and duality dissolves. Relaxed in vitality and versatility and the flow and aliveness of life. The wholeheartedly dive into the void of the moment, encountering the unknown and especially nurtured by creatively directing the potency of your adventurous nature.

Wound

The innermost pain of separation feels life threatening when contacted. Unease, avoidance and drama are the last resorts used to defend against this primal pain. The central strategy of avoidance consists in squirming and skirting around the pain out of shame and an experience of inadequacy. Alongside this pain there is a fear of emptiness and extinction, which then is combatted and at the same time reinforced and maintained by hesitant impotence (powerlessness) and/or impetuous evasiveness.

## THE PEARL

### THE PEARL: FACETS OF UNITY - THE ABUNDANCE OF INHERENT CONTRIBUTION

In the simultaneity and timelessness of four holographic lenses - called the Vocation, Culture, Brand and Pearl - the Pearl Sequence describes the mystical treasure revealed and brought forth in the journey through the Venus Sequence. Released from false identification with ancestral wounding, the essence at the core reveals itself as the golden thread of your true inner vocation.

We are all deeply wounded in our vocation and in the grace of what we can bring to the world, whether we call it gift, talent, contribution or vocation. The Pearl calls us out to a new level with a new frequency. Once you have dived deeper and experienced unity, the Pearl emerges in this state of being a 'free spirit'. There is a noticeable shift in your radiance, and the experience of wholeness reveals the treasure that you have been questing to find.

From this state of being the natural inherent contribution is liberated into the world in all its facets, with a distinctive signature, in resonance with a specific environment and in contact with those people, cultures, places and dimensions it is destined to touch.

The Pearl opens inside you. It cannot be pried open with the mind. It is the culmination of the quest and the call to the next journey, creating from the purity of your being. It can only mature in its own time revealing itself to you once the journey comes to rest. In the revealing of the Pearl we experience a true exchange with the universe, a giving and receiving of your deepest gifts in synchronicity and unity with the greater whole. The Pearl is the state of being where you experience yourself simultaneously as both a differentiated unique individual as well as a vibrating facet in the interwoven geometry of the whole.

## THE PEARL

Samuel Harris

**THE PEARL****Samuel Harris****◎ 38.5 Brand**

As the flow from the inner vocation reveals its mystery to you, it opens up new pathways of enterprise and cognition which shifts your perception. New found abilities appear which emit a distinctive signature. These may call you to pursue your vocation in new and unique ways. All of this is weaving together the codes of light to open The Pearl.

Wise clarity resting upon Honor.

**4 63.3 The Pearl**

Is the holy nectar that binds the Golden Path together. It is the indispensable essential ingredient. Inside and outside are one.

“I am complete”. “Now I can move in the world as me”.

The Pearl opens inside you. It cannot be pried open with the mind. It is the culmination of the quest and the call to the next journey. It can only mature in its own time revealing itself to you once the journey comes to rest. This revelation brings you to real exchange with the universe. To a giving and receiving of your contribution with the bigger whole.

Truth with playful and rich wisdom.

**♂ 57.3 Inner Vocation and Core Essence**

In the experience of wholeness the essence at the core reveals itself as the golden thread of your true inner vocation. The pure fragrance of this essential quality begins to once more permeate your system. With this transformation comes immersion in life, at a completely new level of frequency.

Clarity with playful and rich wisdom.

**4 37.4 Culture**

Being in your personal essence you naturally attract the specific, nourishing environment to interact with those people, cultures, places and dimensions it is destined to touch. As a valued member in the circle of community your gifts are amplified as they have come home. This culture point is the vehicle to bring your personal essence into the world.

Tenderness in heartfelt connection with communities and networks.

## ABOUT THE GOLDENPATH EVALUATION

The present pdf document summarises the Four Prime Gifts and keynotes elements of the Venus Sequence and the Pearl Sequence for in-depth personal contemplation, and for professional Integral Human Design guidance. The Activation Sequence focuses on the self and the theme of one's fundamental frequency. The Venus Sequence takes us into the world of true connectedness and compassion. This clears the way for the Pearl to reveal one's authentic contribution in the world.

The holographic view of the Prime Gifts presented in this profile, as well as the original transmission of the Venus and Pearl Sequences, came through our beloved fellow traveller Richard Rudd (author of the book *Gene Keys: Unlocking the Higher Purpose Hidden in Your DNA*) in June 2004 at the time of a special Venus Transit. This was also seeded in us at that time and has matured over the past seven years. This current offering of the Venus and Pearl Sequences therefore represents an ongoing collaborative labour of love for Laura Bluma-Pitzal, Martha Cuffy, Tanmayo Lawson and Werner Pitzal. The Hogenetic Profile and especially the Venus and Pearl Sequences are an ever evolving reality, keeping us fresh, vital and present in the moment. They continue to be subject to change to represent more recent practical findings.

This profile is an introduction and an overview. It contains key phrases and words which provide a starting point for in-depth contemplation and dialogue as well as an insight into the abundance and the depth of the themes and states involved, but can be deeply misunderstood without an appropriate context. They are by no means a complete description of the processes involved. In this sense the profile can never replace the personal exchange available in transparent personal contact with an experienced and supportive professional guide.
